

VETERANS ADJOURN FULL OF "BURGOO"

G. A. R. ENCAMPMENT AT LOUISVILLE CLOSED.

Big Barbecue Enjoyed by the Members Yesterday—Strong Resolutions on Pensions Adopted—Kindred Organizations Elect Their Officers—No More Long Marches.

Louisville, Ky., Sept. 14.—The Grand Army of the Republic has held its twenty-ninth encampment in Dixie, enjoyed the hospitality of Louisville and concluded its business. The Grand Army as an organization attended to some business yesterday, but the Grand Army as an aggregation of old soldiers went out to Wilder Park to enjoy a Kentucky barbecue and sample Kentucky burgeo.

General Walker last night issued his first general order, assuming the duties of commander-in-chief, and establishing headquarters in Indianapolis. He will not make his appointments until next week.

The report of the committee on pensions, after reviewing the work accomplished by the soldiers of the Union during the war and the laws passed in their behalf, says:

"In some quarters the old soldier has come to be looked upon in the light of a burden instead of a great and patriotic privilege, as he should still appear, when viewed in his true character. The just provisions authorized have been grudgingly doled out as though the laws passed in the interest of the pensioner as a just recognition of the obligations of the country were criminal laws, to be strictly construed, and the public beneficiaries thereof were public enemies or parasites seeking admission to the treasury of the United States. We demand for our comrades the just due which the country gladly concedes. No niggardly cutting down of pensions under the guise of re-issue; no partial and grudging allowances that are cut here and there will meet with the full measure of duty that the country owes to its surviving heroes. Receding from no position that we have heretofore taken, reaffirming all our previous declarations on the subject, we specially demand a liberal and just construction of the laws passed for the benefit of the pensioner to the end that in his declining years he may not be harassed with doubts born of distrust or the difficulties thrown around him by a rigorous or restricted construction of the laws passed in the past to relieve his condition." The report was unanimously adopted.

The roll was called by states for the naming of the council of administration, which resulted as follows: Alabama, M. D. Wickersham; Arizona, J. W. Carrington; Arkansas, Powell Clayton; California and Nevada, A. W. Barrett; Colorado and Wyoming, A. W. Jones; Connecticut, A. D. Sanborn; Delaware, L. C. Grubb; Florida, W. J. Allen; Georgia, A. E. Gowers; Idaho, P. R. Miner; Illinois, T. W. Scott; Indiana, W. H. Armstrong; Iowa, A. W. Swahn; Kansas, D. B. Dornblaser; Kentucky, Charles W. Erdmann; Louisiana and Mississippi, James Lewis; Maine, A. B. Snipe; Maryland, Charles L. Marbury; Massachusetts, H. W. Downs; Michigan, G. H. Hopkins; Minnesota, Albert Schaeffer; Missouri, F. M. Sterrett; Montana, G. W. S. Wisner; Nebraska, T. J. Majors; New Hampshire, E. A. Badger; New Jersey, J. T. Kents; New Mexico, J. W. Crawford; New York, T. F. Reede; North Dakota, W. H. Brown; Oklahoma, J. J. Hassler; Ohio, R. H. Cochran; Oregon, H. B. Compton; Pennsylvania, C. W. Gerwig; Potomac, I. W. Stone; Rhode Island, C. A. Barbour; South Dakota, E. B. Farr; Tennessee, H. L. Steele; Texas, E. L. Whitman; Utah, E. D. Tatlock; Vermont, E. W. Jewett; Virginia and North Carolina, H. E. Getty; Washington and Alaska, James Dickinson; Wisconsin, H. L. Thomas.

A resolution was adopted appointing a committee of five to arrange for the erection of a monument at Washington to commemorate the loyal women who served as nurses or in other ways aided the soldiers of the Union during the rebellion.

A resolution was adopted empowering the commander-in-chief and the council of administration to change the place of holding the next encampment should the railroads or hotels not make satisfactory rates. A rule was made permitting posts to consolidate as the membership grows less.

A resolution was adopted recommending that Congress should pass a law equalizing the pension of war widows so that all shall receive at least \$12 a month. Some of them are now receiving from \$8 to \$10 a month.

Resolutions were adopted declaring it to be the sense of that body that all veterans should be favored by civil-service boards, that such boards should not discriminate against these heroes of the rebellion on account of their age.

Another matter of interest was the adoption of a resolution favoring the placing of flags upon every public school building and the introducing of a school building and the introducing of military drill in the public school curriculum.

The camp further declared itself against long parades and marches at future encampments.

Resolutions were adopted asking Congress to make an annual appropriation to defray the expenses of conducting

Memorial Day services in national cemeteries. Another was adopted favoring the establishment of a military post at Vicksburg, Miss., and for the erection of a soldiers' home at Camp Supply, Ok.

The senior vice commander, surgeon general, and junior vice commander were then installed, after which the chaplain and commander-in-chief were in turn installed. The encampment then adjourned, to meet in St. Paul next year.

The Woman's Relief Corps did nothing yesterday owing to the injunction against the national officers restraining them from unseating Mrs. Ada F. Clark of Canton, one of the past commanders of the Department of Ohio, who had been court-martialed and suspended, and who was reinstated at Washington three years ago. At 1 o'clock yesterday Judge Edwards refused to make the injunction permanent. On the restraining order being dissolved Mrs. Clark was ousted, and the Woman's Relief Corps proceeded with business.

The Daughters of Veterans elected Mrs. Ellen M. Walker, Worcester, Mass., president.

The National Association of Ex-Prisoners of War elected George W. Grant, Minnesota, president.

This week of unprecedented hospitality and good will closed with sadness. While the funerals of the five victims of Wednesday's explosion were in progress yesterday fully one hundred were suffering from injuries at the collapse of the grand stand during the display of fireworks Thursday night. In addition to the fifty names of the injured given there are about fifty others who were taken to their homes in carriages by friends. Only the names of those taken away in the ambulances were obtainable.

Women Win a Notable Victory.

Ann Arbor, Mich., Sept. 14.—The women achieved a notable victory yesterday when eleven of them were admitted to the lay electoral meeting of the Detroit M. E. conference. This action is contrary to the spirit of the general conference, whose exclusion of women at its last session created considerable feeling in church circles. The lay conference, however, took the church law into its own hands and became judge of the qualifications of its own members. The women graciously took their place in the conference and participated in the proceedings of the day with as much business acumen and shrewdness as the men who would have driven them out. The election of delegates to the general conference, to be held in Cleveland in May next, resulted in the election of George O. Robinson of Detroit, and Dr. R. H. Copeland of Ann Arbor. Arthur H. Swarthout of Saginaw and Myron H. French of West Branch were named as alternates.

Capt. Sumner's Sentence.

Washington, Sept. 14.—The navy department made public yesterday its action in the case of Capt. George W. Sumner, late in command of the United States cruiser Columbia, who was tried recently by court-martial at the Brooklyn navy-yard on charges growing out of the injury sustained by his vessel in docking at Southampton in July last. He is found guilty. The sentence of the court is as follows: "To be suspended from duty only for a period of six months on waiting orders pay," and to be reprimanded by the honorable secretary of the navy."

Cuban Insurgents Lose a Battle.

Tampa, Fla., Sept. 14.—Letters received from Cuba announce the safe arrival in the field of Colonel Jose la Crete. On the 9th Colonel Canellas, with 1,500 men, attacked the Maceo brothers, who were holding a strong position on the river banks in Santiago province, with 3,500 men, according to Spanish reports. These reports say the Spanish lost several officers, Canellas being one. The insurgents, after vigorous fighting, were routed and pursued to Iguanabana.

Jacksonville Conference Favors Women.

Jacksonville, Ill., Sept. 14.—An exciting session of the Methodist conference was held yesterday, the subject of women representatives in the general conference and the election of delegates to that body being before the members. A resolution instructing the delegates to vote in favor of the admission of women to the general conference was submitted, and after a heated discussion was passed.

May Be Another Coal Strike.

Massillon, O., Sept. 14.—A convention of the coal miners of the Massillon district has been called for September 24 to consider a proposition to ask for an advance of wages. Several local grievances have aggravated the men, and it is believed that the district is on the verge of another strike.

Earthquake Disaster Not Verified.

New York, Sept. 14.—Telegrams addressed to correspondents at various points in Central America have failed to bring any verification of the reports of earthquakes, with attendant heavy loss of life, in Honduras.

Mine Victims Buried.

Calumet, Mich., Sept. 14.—Two more bodies were recovered yesterday from the lower levels of the Osceola, leaving only three yet missing, and as the fire is now out and the ventilation of the mine improving, they will doubtless be brought out today. Ten funerals were held yesterday. Seventeen will be held today and four Sunday, with three more yet to be aequed.

GOLD NOT BROUGHT BACK TO THE MARK

BOND SYNDICATE DOESN'T MAKE DEFICIT GOOD.

Wall Street Uneasiness Grows in Consequence—Members of the Syndicate Insist That Their Agreement Was Ended Last June—About \$4,400,000 Shipped Today.

New York, Sept. 14.—The syndicate failed to make good the shortage in the gold reserve today and Wall street uneasiness was increased. The withdrawal of \$2,500,000 by Lazard Freres yesterday was 3 o'clock there had been withdrawn for shipment by today's steamships \$4,400,000. To offset this, deposits were made amounting to \$1,000,000. The action of Lazard Freres created unlimited discussion in Wall street. It was the first time that an accredited member of the syndicate has withdrawn gold. The news of the withdrawal knocked the underpinning from the stock market, and resulted in a rapid slump in prices.

At the office of the firm it was formally stated that the gold would be exported to Europe to meet mercantile obligations there.

"We held off from exporting gold," said a representative of the firm, "as long as possible. But the condition of the exchange market has finally forced us to withdraw the gold for export. The backwardness of the cotton and grain crops, and the fact that Europe is holding large stocks of our cotton, at cheap prices, operate against a supply of commercial bills. Besides this, the cheapness of money makes it profitless for Europe to keep idle funds here. This shipment should not be considered of any importance. In a few weeks there will be an abundance of commercial bills in the market, and the pressure will be relieved."

The withdrawal of \$4,400,000 in gold from the sub-treasury reduced the government gold reserve to about \$95,100,000. The deposits of \$1,000,000 made it \$96,100,000.

In respect to the gold engaged in the city for shipment by today's steamers, the following statement is authorized by the bond syndicate:

"The impression has become general that the members of the bond syndicate entered into an agreement with the United States treasury to maintain the \$100,000,000 reserve until October 1 prox., and that upon that date the said obligation will cease and terminate. Such is not the case. The bond syndicate fulfilled all its obligations to the government in June last, and has not since been bound in any way to the treasury. It is true that it has from time to time since June last paid over various sums in gold coin to the treasury, which have sufficed to maintain the reserve, but it has done so voluntarily, and will continue to do so in the same spirit and for the same motive. So far as October 1 is concerned, it has no relation to the actions of the bond syndicate, and it will continue to deposit gold until November 1, and December 1 and January 1, if necessary, and if existing conditions make it feasible to do so. But neither the bond syndicate nor any one else can control the elements. But the idea that its relations to the treasury situation will be any different on or after October 1, from what they are now and have been all along, is erroneous and should be corrected."

SURPRISE AT WASHINGTON.

Heavy Withdrawals Were Unexpected There.

Washington, Sept. 14.—The news that \$4,400,000 had been withdrawn for export from the sub-treasury at New York was received here with surprise, and the announcement created for the moment something like a sensation in the treasury department. This feeling, however, was not shared by the high officials, who apparently regard the withdrawal as an incident to the speculative spirit that seems to pervade Wall street at this time. The heavy withdrawals that have been made recently are declared to have been in the interest of speculators, and not to have been warranted by the present legitimate business conditions, or the legitimate demands for gold abroad.

By some officials it is thought that the withdrawals are made with the sole purpose of forcing another bond issue. It can be stated, however, on excellent authority, that there will not be another issue of bonds. The reason given is that none will be needed. Those who are cognizant of the facts state that the Morgan-Belmont syndicate under the terms of its contract will undoubtedly protect the gold reserve against the inroads of speculators, and will see to it that a reasonable balance is maintained. No doubt is expressed that as soon as the grain shipments from the Northwest have fully set in there will be an abundant supply of foreign bills on the market to meet every demand, and the withdrawals, it is thought, must necessarily cease.

Whether the anticipated cotton and grain shipments will relieve the situation so far as gold exportations are concerned remains to be seen. The amount of the exportations of gold during the last twenty months is unprecedented. Since Jan. 1 of last year the gold coin and bullion exported from the United States aggregates about \$169,234,300, while the importations during the same period amount to only \$48,513,590, which leaves the excess of exports over imports about \$120,720,710.

SHOPS IN FLAMES AND WOODS AFIRE

THREE BRICKPORT, N. Y., FACTORIES DESTROYED.

Cincinnati Has a \$200,000 Blaze in a Pickle Factory—Train in New Jersey Has a Race With Flames—Engineer Was Unaware of the Extent of the Fire.

New York, Sept. 14.—The Morgan Harvester Works burned this morning. The Clark Sulky Works and Curry & Berry's shops were also destroyed. The Presbyterian church and other buildings were damaged. The loss is heavy.

Cincinnati, Sept. 14.—The Pickle Works burned this morning. Two thousand dollars is the estimated loss.

New York, Sept. 14.—Again the forest fires are raging in the vicinity of Atlantic City, N. J., consuming everything in their course. A vast amount of valuable timber and game land has been swept by the flames. The fire began burning Thursday afternoon at Reega, a short distance from Atlantic City, and the site of the Hebrew colony recently established by Baron Hirsch, of England. The forests are so dry and the prospects of a heavy rainfall so poor that there is every likelihood that the flames will reach the thickly settled portion of the place.

Thursday night the train containing the officials of the county court, which is in session at May's Landing, and a large number of lawyers and litigants dashed through an ocean of flames, and the wonder is that no lives were lost. Engineer Connolly supposed that the area of fire along the tracks was not so great as it turned out to be, and the result was that every car on the train was badly blistered, and the wood-work was charred in places. On approaching the fire the passengers threw themselves prostrate on the floor, and remained in that position until they were out of danger. The heat was something terrific, and the black, penetrating smoke of the blazing pine, impregnated strongly with pitch, was almost suffocating.

Mrs. Mary Maratsky lived in a humble dwelling which she had built in a clearing near Reega, early in the summer. She saw the flames approaching her little home, and lingered with the idea of saving a few of her household effects. Her dress caught fire, and as she ran the breeze fanned her garments into flames. She was terribly burned and had to be taken to the city for treatment. A number of narrow escapes are reported.

There is no sign of the fire abating, and if the wind does not die out today may furnish a tale of destruction heretofore unequalled in the history of forest fires in the state. A mile from Egg Harbor City the forest is all ablaze, and the situation is more dangerous now than it has been at any time during the summer, for there has been no rain in weeks. It is impossible to see the sky on account of the dense clouds of black smoke that hang like a pall over the city. The clouds seem to sink to the ground from their weight of soot, and occasionally there was swept across the sky, like a blazing meteor, a burning brand.

Business at Egg Harbor was entirely suspended yesterday, and the citizens turned out en masse to fight the flames and protect their property. The fire alarm was ringing incessantly all day, and the women and children of the place are in a state of panic. It seemed for a time as if the town was doomed.

Iowa Methodists Choose Delegates.

Ottumwa, Iowa, Sept. 14.—The third day's session of the Iowa Methodist conference was full of interest. The lay delegates held their session and developed some pretty political tactics in the selection of delegates to the general conference. Senator Harlan of Mt. Pleasant and Chris Haw of Ottumwa were chosen delegates, with Messrs. Hayne of Bloomfield and Axtell of Newton alternates. The resolution favoring the admission of women to the general conference was carried with a rush, but one granting equal suffrage with men in church and state was tabled.

Important Decision Reversed.

Washington, Sept. 14.—The interstate-commerce commission considers that it has won an important victory in the decision rendered by United States Judge Buffington at Pittsburg, holding that Auditor Brown of the Allegheny Valley railroad company must answer certain questions of the federal grand jury relating to alleged violations of the interstate-commerce law. The decision, it is said, amounts to a complete reverse of the doctrine held by Judge Grosscup in the James case.

Tornado in Ohio.

Wooster, O., Sept. 14.—The heaviest wind and hail storm that has visited this section of the state occurred Thursday night. The damage by the wind alone is estimated at \$300,000, to say nothing of the enormous damage to growing crops and to the aples.

Tiffin, O., Sept. 14.—The village of Melmore was visited by a tornado Thursday night and many houses were unroofed, trees blown down and fences razed. The storm was three miles in width and followed the path of the terrible tornado which passed across Ohio nine years ago.

WIFE IS CHAMPION.

New York, Sept. 14.—The 220 yards race for the national championship of the Amateur Athletic Union, was won this afternoon by Wefers.

Crum was second; C. W. Sage of Cleveland third, and F. Lee of New York fourth. Time 21 4 5.

Milwaukee Sept. 14.—Mayberry, the famous Wisconsin university sprinter, is charged with racing a professional in Spring Green yesterday. He will be protested in the inter collegiate games.

DUN'S WEEKLY TRADE REVIEW

Prices of Cereals Have Settled Back During the Past Week

New York, Sept. 14.—R. G. Dun & Co's Weekly Review of Trade says: "A slight set-back, which may mean much or nothing, according to the final outcome of the crops, is not unexpected at this season. If the government crop reports were correct, the situation would not be encouraging, but not much confidence is placed in the reduced estimate of corn, none at all in the estimate of wheat, and even the most enthusiastic bulls do not think it worth while to quote the government report as to cotton.

"The fact is, we are beginning to market not far from 2,200,000,000 bushels of corn, though only about 500,000,000 bushels will be moved from the counties where it is grown; about 450,000,000 bushels of wheat, of which the farmers are unwisely holding back a large portion, and about 7,200,000 bales of cotton, if the latter indications are not erroneous, as they very easily may be, to add to the stocks carried over. The commercial stocks of cotton Sept. 1, here and abroad, amounted to 2,100,538 bales, and domestic mills' stocks were 360,618 bales, allowing not a single bale for increase of stocks at southern mills.

"Prices have settled back a little during the past week, notwithstanding the gloomy department report. The wheat crop is evidently larger than the department has estimated, though nobody knows how much larger, and is coming forward with more encouraging rapidity, no less than 5,773,173 bushels having been received at western points, against 5,510,926 bushels last year. The price declined sharply, about 2 cents per bushel, with little indication of recovery. The price of corn has also yielded, with a strong prospect of the largest crop ever grown, and at 38 cents at New York a large proportion of the crop will be of little profit to farmers.

"If we are to have a large crop of grain and a small crop of cotton, it is natural to infer that manufacturers may find large transactions at the west, but not at the south. There is, in fact, a very large demand for goods at the west, and west bound shipments are unusually large, although the east bound shipments from Chicago for four weeks of August amount to only 210,313 tons, against 222,144 for the same week in 1894.

"The largest output of pig iron ever known, 194,029 tons, is apparently supported by a reduction of 64,000 tons in stocks of pig iron unsold, but the fact that the great steel companies have taken large quantities, which are not included in the official statement, renders the account of stocks less valuable.

"The rapid shipments of Marquette ore during the past week have some influences upon prices of Bessemer products. Nothing of importance has occurred in the minor metals, though tin has been stronger at times, with London buying, and copper has been helped by the report of a big sale of lake at 12 1/4 cents.

"Cotton goods have been strong, with a comparatively good market for raw cotton, but at the close a decline is indicated, because the market for raw cotton has shown much weakness. Sales of wool have been 6,147,900 pounds for the week, against 11,311,300 pounds for the same week in 1892, and there are indications that the domestic market is quite overloaded by the speculative purchases made some time ago.

"Failures for the week were 187 in the United States, against 219 last year, and thirty-four in Canada against forty-four last year."

Testify Against Hinshaw.

Danville, Ind., Sept. 14.—The state will probably close its case today and the Rev. Mr. Hinshaw will then proceed to try to establish his innocence. Testimony yesterday was very damaging to the defense. It was proved that he had told many different stories. Altogether about twenty different accounts of the tragedy have been given as coming from the preacher, and no two of them tally.

Six witnesses testified as to his relations with Allie Ferree, and reached a very strong suspicion that his conduct was altogether too familiar on all occasions. Other witnesses will testify today along the same line. C. W. Smith will make the opening statement for the defense this afternoon.

Missouri Crops Damaged.

Nevada, Mo., Sept. 14.—The overflow of the Marmaton river caused by the recent heavy rainfall has covered thousands of acres of growing crops and the damage will be considerable.

NOT CRAZY ENOUGH TO BE SAWED OPEN

KENOSHA FIRE BUG'S INSANE DODGE FAILS.

Detective Tell the Doctors They Must Cut Open the Prisoner's Skull to See the Workings of His Brain—That Makes Him Flinch.

Kenosha, Sept. 14.—Barney I. Bloch's plea of insanity which was relied on to save him from trial on the charge of arson, flattened out today. A commission of doctors examined him, and Detective Smalley insisted that a piece of his skull must be taken out to permit access to his brain. Bloch heard the talk a few minutes; then he blurted out: "I'll be d— if you will."

CANNOT CHECK CHOLERA.

Will Spread in Hawaii as Long as There are Natives Left.

Honolulu, Sept. 5, via San Francisco, Cal., Sept. 14.—There was a good deal of uneasiness when the sailors on the Bennington were stricken with the cholera, and it caused a great many to believe that the disease would spread to the whites, and many families hurriedly packed their belongings and fled to the beach, a few miles from town, and a large number went into the outside districts. All the houses along the Nuuanu stream have been condemned and burned, and the stream thoroughly disinfected, as well as the harbor. It is impossible to say now whether the disease will be checked. When it seems that it has been done, several new cases appear in different localities. Physicians are of the belief that cholera will continue to exist in Honolulu as long as there are any natives left.

Indiana Sends Silver Delegates.

Indianapolis, Ind., Sept. 14.—It develops that the meeting of free silver people here Thursday evening was for the purpose of appointing delegates to the silver conference to be held in Chicago next Tuesday. Allen W. Clark, president of the state league, and Isaac R. Strouse, of Rockville, will attend the meeting. Senator Turpie has also been asked to be present, but he will probably not attend. The Indiana leaders in the free silver movement understand that the Chicago meeting will talk over plans for making the strength of the silver crowd felt in the national conventions of next year.

Will Advise Repudiation.

Topeka, Kan., Sept. 14.—"If another issue of bonds is made without the authority of congress, I shall advise their repudiation." These were the words of United States Senator Peffer, used in speaking about the probability of another bond issue.

FAIR TOOK IN \$1,200 AS GATE MONEY

FIVE THOUSAND PEOPLE PAID
TO GET IN.

As Many More Got In Free—Mrs. E. C. Bailey Won the Sweepstakes In the Domestic Department and Mrs. J. H. McBride In the Culinary.

For all the cash receipts show only 4,800 people visited the fair this week.

That really includes less than half. Fully six thousand people were on the grounds Thursday.

A host of them came in on stockholders' tickets, helpers' tickets, advertising tickets.

Treasurer James made up his totals today and found the gate receipts for the week to be \$1,200. This is within \$50 of what it was last year.

Secretary Watt and Treasurer James were busy today paying helpers, and the premiums will be paid as soon as the list can be made out.

Mrs. E. C. Bailey won the prize for the largest and best display in the domestic department at the fair, and Mrs. J. H. McBride had the largest and best display of cooking.

Mrs. B. F. Crossett took first honors on cotton embroidery, Roman bolting cloth work, table spread embroidery, Kensington table spread, Mac lace; and seconds on darned netted tidy, hand made point lace and plush embroidery.

Mrs. A. Kingsbury made better linen embroidery, embroidered flannel skirt, head rest, carriage afghan, ribbon work, and her scarf was second best.

Mrs. J. G. Keestel won first prizes on comb and brush tray, bureau scarf, pillow shams, side board scarf, dinner cloth and doilies and took off a second on pillow shams.

Miss Minnie Jones had the pleasure of seeing blue ribbons affixed to her bolting cloth embroidery, scarf, slippers, glove case, mantel drapery, brush broom case, Roman machine, Roman uncut, Dresden bolting cloth, antique lace, crocheted cotton and also bore away several red cards.

About the only manufactory represented at the fair was J. T. Wright's Cyclone and White Nickel soaps. C. L. Harris was on hand showing its superiority.

J. L. Bear bought from James Little the cow that won the prize for greatest quantity of milk. She was a Holstein with Durham cross. The was \$40.

BEER MEN BANK ON JANESVILLE
Wicked Beloit Editor Discusses the State Fair Liquor Traffic

The Sentinel estimates that 125,000 glasses of beer must be sold on the State Fair grounds to get the \$5000 back that is paid for the privilege of selling on the grounds. Evidently the party who paid \$5000 for the privilege of selling had previously arranged with the people of Racine and Janesville to attend the fair during its continuance en masse. If he did, there's a million it even at \$5000—Beloit Free Press.

Keller, 20 cases at 5 1/2 and 3 cents; George Nichols, 27 cases at 4 1/2 and 1 cents; T. D. Haritzell, 32 cases at 7 and 8 cents; T. D. Haritzell, 29 cases '94 at 3 and 1 cents; J. McDermott, 20 cases '93 and '94 at 5 and 1 cents; Ward & Leitz, 13 cases '93 at 6 and 1 cents; Ward & Leitz, 14 cases '94 at 4 and 1 cents.

Among the transactions reported by The Janesville Leaf are: 24 cases '92 O. and 20 cases '93 sold by J. H. Haviland & Son; Soverhill & Porter sold 42 cases, '92; Paul Olson sold 13 cases '92 to S. S. Heddies; F. S. Baines bought 108 cases, '93 at Clinton. J. L. & M. E. Green bought 121 cases of '93.

The close of this week will see the bulk of '95 crop in the shed, and if it cures out well, it will be one of the most perfect crops ever grown in this state.

It is not as some former crops have not been, but it is almost entirely free from the ravages of the green worm, grasshoppers and hail.

A FEW buyers are quietly picking up cured leaf at several of the market places but nowhere does much activity develop.

THERE is no apparent change in local market conditions, there being about the usual number of sales and a fair retail trade.

THE drouth is still pinching the later tobacco in many sections and the growth promises to be small.

THE late tobacco is growing rapidly under the effects of heavy dews nightly and very warm days.

THE harvest of the new crop continues and most of the early set fields are now secured.

SOME of the shorts of the '93 crop are now being inquired for.

PRICES have not materially changed in the past six months.

SLEPT WHILE ROBBERS WORKED.
T. Fletcher of Janesville, Was Not Awakened By Johnstown Burglars.

L. Fletcher, of this city, whose son runs the Johnstown store, had an experience with thieves the other night. Mr. Fletcher Jr., wanted to come in to see the fair, so he sent to Janesville ordering his father to come out and run the business for him in his absence. Mr. Fletcher complied, but reached the store after his son had taken most of the money and gone home. Not desiring to awaken the family, Mr. Fletcher stretched out on the counter for the night. About the time the Janesville man became blissfully unconscious of the troubles of the world, a hang-dog looking burglar began cutting a pane of glass out of the rear window of the store. When the opening was made, the thief threw the bolts on the door; entered the store; rifled the cash drawer, which contained three or four dollars; took a new suit of clothes and left without awakening Mr. Fletcher, whose eyes opened wide with astonishment when he awoke in the morning and saw what had been done.

SWITCH LIGHTS ARE AFIRE.
Flames Cause Loss in the Chicago, Milwaukee & St. Paul House.

As a result of a fire at the St. Paul oil houses in Monroe, there were no switch lights out all night. They were being filled at the oil house and while they were tested one of the burners became ignited. It was thrown from the building, but the wind blew the flames back into the door and soon all the lamps were in flames. The oil that had become soaked into the floor caught fire and for a moment the situation looked serious. There was one barrel of oil but the department put out the flames before the barrel burst.

CLIOSOPHIC SOCIETY JOINS.
University Association Receiving Many New Members In Janesville.

A. C. Fish is meeting with much success in introducing the University association work to Janesville. The local branch of the association already numbers thirty-five members; the secretary thinks the number will reach at least seventy-five. Delavan has sixty-two and is thus far the banner city in Wisconsin in members and enthusiasm. The Cliosopic society voted last evening to take the association history course this year.

NAILS ARE HIGH NOW AND PROFITS BIG

PRICE JUMPS FROM 90 CENTS
TO \$2.95 PER KEG.

Result of a Combination—Dealers Said to Have Made Lots of Money Out of the Advance—Workmen Can No Longer Throw Handfuls of Pennies At Dogs.

Prices of nails have taken an unprecedented rise within the past few weeks and this very useful commodity has taken on a new value in the builder's eyes. Nails have always been considered the cheapest article that entered into the construction of a building, in fact contractors have considered it a loss for a workman to stop work to pick up a nail that had been dropped, but it is so no longer. Nails are precious, and woe to the workman who handles them with careless hand. Wire nails, the only kind that are used to any extent, from the penny to the six-penny, a short time ago were sold as cheaply as 90 cents per keg, but at the present day the purchaser is obliged to pay \$2.95 in large lots for the same amount, an increase of over 300 per cent.

The rise in the prices as far as can be learned is attributable to a combination of of the manufacturers and dealers generally were aware that it was coming. When the prices began to go up therefore most of the dealers had large stocks on hand and many at present have considerable space in their warehouses taken up by the nails.

While the prices of nails have gone up all other building materials have undergone no change so far as the builder is concerned. The predicted rise in the prices of lumber has not materialized up to the present and lumber dealers say there is no likelihood of a raise for the present. Cargo lots, however, have gone up and lumber today costs the big dealers more than it has for some time past, but the raise has not been enough to warrant an increase in the prices to the contractors and builders.

A CHILD SAVED.

Tena Small Given Back to Her Parents.

A Very Happy Mother and a Very Happy Home.

A Full Description of How It All Came About.

"A dreary place would be this earth Were there no little people in it; The song of life would lose its mirth Were they no children to begin it."

Our children are in truth the light of our lives. The word home has its fullest meaning only where there are children.

Mothers, therefore, can comprehend the joy which thrills each word of the following communication from Mrs. Ernest Small of Lisbon Falls, Maine. (Box 196)

"During the latter part of last winter, my little daughter, Tena, had a severe run of typhoid fever, which left her in a very bad condition. She failed instead of gaining any. She was extremely weak and nervous and could not take a proper amount of nourishment on account of the condition of her stomach. In fact, her appetite failed so she could eat nothing."

"She had sores in her head which broke and discharged, and she was very deaf for some time. We grew very anxious about her."

"Finally I gave her Dr. Greene's Nervura blood and nerve remedy, and she began to gain right off. I am glad to write of the benefit and great good, she received from its use. I did not have to give her quite two bottles, and it made her as well and as strong and as rugged as can be. I cannot thank this wonderful good medicine enough, and I have recommended it to others."

Little Tena Small.

If your infants or children are sick give them that greatest of all children's remedies, Dr. Greene's Nervura blood and nerve remedy. This wonderful remedy is, above all, a family medicine, and its name is a household word in thousands of homes all over the land. It is made from pure and harmless vegetable remedies, is calming, soothing and healing to the nerves, and at the same time strengthens and invigorates the whole system, restoring a healthy color to the cheek, refreshing sleep, strong nerves, stout limbs, and that bounding health and vitality which all children should have. It is perfectly safe to give to children of any age, and its curative and restorative effects are wonderful.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

A Small Family
Could not do better than to either correspond or see us on the sale or rental of the house and lot we have facing Riverview Park. The house is heated by steam radiator in every room, and fine Magee range in kitchen, connected with hot and cold water, bath room, water closet, stationary laundry tubs, perfect sewerage and shades for all windows, newly papered, hard wood floor. In fact, is a model house and just right for a small family. Carriage house line passes the door and within two and a half blocks of the street cars. We are the boys for business. Will sell, rent or trade to some one. Lowell Hardware Co., Milwaukee street.

Those Supplies

JANESVILLE MAN CONTESTS A WILL

F. H. BALLONE SEEKS MONEY
LEFT BY A RELATIVE.

Will Left Him \$300 and Left \$6,500 to St. Josephs Catholic Society of Baraboo—Nieces and Nephews Join In the Suit.

The contest case over the will of the late Jacob Ballone is being tried at Baraboo. Frank J. Ballone, a painter residing in this city, is the principal contestant, his case being in charge of Fethers, Jeffris & Field.

Ballone filed an affidavit of prejudice against Judge Kelsey, of Baraboo, so Judge Carpenter, of Madison, will hear the case. In the will \$300 was given to the adopted son, Frank J. Ballone, two nieces and a nephew, and the balance, about \$6,500, to the St. Josephs Catholic society of Baraboo.

BOYS LUNGS PIERCED BY A FORK
Magnolia Lad Painfully Injured While Assisting In Threshing.

The youngest son of Mr. and Mrs. Michael Murray of Magnolia, received quite a serious injury while assisting in threshing. He was about to get out from the stack when the fork, striking him on the shoulder, going through his lungs. The boy was picked up senseless and brought to the house. Dr. Anderson, of Orfordville was called to attend him.

BRIEF BITS OF LOCAL NEWS.
WHEN a new pair of shoes is brought home never place them higher than your head if you would have good luck while wearing them and never blacken them before you have on both shoes or else you may meet with an accident and perhaps sudden death. We give this advice for we do not want any of our customers to croak with their shoes on. Brown Bros. & Lincoln.

Don't put it off too long. Cold weather may jump on to us suddenly, and chill the boys to the marrow. Changeable weather is a breeder of serious colds. Get the boys clothed to prepare for it. Frank H. Baack.

HOT WEATHER DYSPEPSIA.
Thousands Suffer From It at This Season of the Year.

Hot weather dyspepsia may be recognized by the following symptoms: Depression of spirits, heaviness and pain in the stomach after meals, loss of flesh and appetite, no desire for food, bad taste in the mouth, especially in the morning, wind in stomach and bowels, irritable disposition, nervous weakness, weariness, costiveness, headache, palpitation, heartburn. It is a mistake to treat such troubles with "tonics," "blood purifiers," "cathartics," "pills" because the whole trouble is in the stomach. It is indigestion or dyspepsia and nothing else.

All these symptoms rapidly disappear when the stomach is relieved, strengthened, and cleansed by Stuart's Dyspepsia Tablets. They should be taken after meals and a few carried in the pocket to be used whenever any pain or distress is felt in the stomach. They are prepared only for stomach troubles.

Stuart's Dyspepsia Tablets are endorsed by such physicians as Dr. Harlandson, Dr. Jemison, and Dr. Mayer, because they contain the natural digestive acids and fruit essences which when taken into the stomach cause the prompt digestion of the food before it has time to ferment and sour, which is the cause of the mischief.

Stuart's Dyspepsia Tablets are pleasant to take and unequalled for invalids, children and every person afflicted with imperfect digestion. It is safe to say they will cure any form of stomach trouble except cancer of the stomach.

Nearly all druggists sell Stuart's Dyspepsia Tablets, full sized packages at 50 cents. A book on stomach troubles and thousands of testimonials sent free by addressing Stuart Co., Marshall, Mich.

LABOR SUFFERERS.

A recent issue of Bradstreet's makes a significant explanation about railroad earnings. The total gross earnings of 145 companies, operating about two-thirds of the country's railroad mileage, were \$349,099,773, a gain of 3.6 per cent over the first half of 1894, while the net earnings aggregated \$102,767,786, a gain of 8.1 per cent, or more than twice the proportion of gain in gross earnings.

From the foregoing figures it is very evident that railroad companies are continuing the methods of economy that were forced upon them during 1893 and 1894, otherwise the net gain in their earnings would not be so very much larger than the net gain in their gross earnings.

One of the most serious results to labor caused by the free trade administration consisted in the fact that it compelled the discharge of hosts of working people and doubled the tasks of others. Now that prosperity is returning employers are slow to restore old conditions and in this way the employment of labor has, and will be lessened.

NEW YORK THEIR FIELD.

Chairman Harrity's declaration that if democrats win in New York this year they will elect a president in '96 is significant. It means that eastern democrats are bound to keep New York at the front in democratic national conventions. If Cleveland either refuses or is denied the nomination some other New Yorker will be put up. The lien which that state holds on the democratic candidacy must be continued. In all probability it will be continued unless Campbell develops strength in his contest for the Ohio governorship. This is the only chance which the democrats of the rest of the country have to break the autocratic power over their party wielded by the New York dynasty. The west has no other democratic presidential possibility than the Ohio governorship candidate and, of course, the south has none.

ARE BROTHERS ALL.

In all the Louisville dispatches one fact has been especially emphasized—the general and cordial fraternization of the Federal and Confederate soldiers. It seems strange to civilians that men who were once engaged in the grim work of trying to kill each other should now meet in the most friendly spirit and drink from the same "canteen," but the truth is that the men who did the fighting in the war cherish none of the bitterness which is frequently manifested by those who staid at home. The soldiers on the two sides have a feeling of comradeship that implies mutual respect for the courage and fortitude that they respectively displayed.

Who would have thought two years ago that Tammany could be downed, the New York Sunday law enforced and the streets cleaned? It all shows what power the decent people in a community can exercise when they coöperate.

A good many names of otherskites come to the surface at big meetings, but ex-Governor John M. Thayer of Nebraska, ranks with any of them. He was choked off by the angry veterans at Louisville, but not until he had taken the time of the convention to discuss questions wholly foreign to

the occasion and to call upon congressmen present to "amend the naturalization laws when you go to congress, so as to shut out the dagoes of Italy and the immigrants of other European countries."

Janesville may well be proud at having its name brought forward in connection with that of Dr. J. B. Whiting. A city is judged by its men, and Dr. Whiting is a man whose sturdy worth speaks for itself.

Mr. Cleveland was the first president who ever delegated the duty of protecting the public credit to a syndicate of bankers. The unfortunate results of the experiment are likely to insure that he will be the last.

It cost the spectators of the big yacht race \$300,000 to see each day's sport, or \$900,000 in all. The yacht owners aren't the only ones who can talk of "privileges earned by heavy outlays."

Bowler is too small to waste an impeachment trial upon. A double-soled presidential boot would just about fit his case, but it will not be applied as long as he merely carries out Mr. Cleveland's orders.

F. W. Thomas, the Colorado member of the national democratic committee, has rendered himself persona non grata to his majesty, Grover I. He denounces Clevelandism.

The Cleveland democrats are not numerous in Nebraska, but they are thoroughly obedient. But as they all hold offices, that isn't strange.

Ashland had a four foot tidal wave yesterday, a visitation attributed by some to the sires of its common council.

SOME SATURDAY SALAD.

MANY people have looked at Taylor's exhibit of Henney vehicles at the fair, this week, and without a doubt each person has said to himself, "those Henneys are beauties," and why shouldn't they say so? It's a truthful statement when it's said that the Henneys are put together, finished up and constructed from the best material possible to obtain. They are put on the market with the idea of advancing the reputation of the worker, and the calculation is good.

Cool weather is coming. You had better get the boys into fall clothing while the assortment is good, while the prettiest patterns are here to pick from and while the boys have time to get well fitted. Our stock, as we have said before, is better this year than ever before. Frank H. Baack.

We will stake our reputation on our children's "Knockemall" suits at \$3.50. Beware of the shoddy kind advertised. No reputable clothier can sell children's clothing cheaper than we can. We can't furnish good suits at \$1.00. Oh no, we don't want to lose your friendship. T. J. Ziegler.

We are going to continue to make a specialty of children's clothing another week. The past few days has found many buyers, even though the weather was not suitable to heavy clothing. Bring the boys in; we will show an assortment that will surely catch you. Frank H. Baack.

J. CRALL IS SUED BY THE FAIR MEN

CIVIL CASE UNDER THE STATE LAW BEGUN.

Charge Is That Crall Got Into the Grounds Without Paying His Way An Offense Punishable By a \$50 Fine—Four Drunks Are Attended To—Negro Came to Jail Alone.

Joshua Crall, the liveryman, is the defendant in a civil suit brought against him in the municipal court, by the Rock County Agricultural society, the summons being served today. The suit is begun under the state law, which provides that any person who shall willfully and without right, enter any fair ground, etc., enclosed by a fence not less than six feet high, shall be punished by a fine not to exceed \$50. While the law does not provide for anything but a civil prosecution, it makes it possible to issue an execution committing the defendant to jail if the fine is not paid.

The action grew out of Mr. Crall's gaining access to the grounds, as it is claimed, by representing that he was a stockholder in the society, which statement, it is claimed, was not true. Special Officer Oscar Mabie tried to collect the money from Mr. Crall and a squabble followed, in which Mabie's cane was broken and Crall's buggy passed over the officer's foot. Mr. Crall said that he was willing to leave the grounds, but objected to the method of collection. After the trouble he drove down the track and out onto Milton avenue. The case will come up on Sept. 21.

Pentit Drunks Set Free.

Four drunks were brought before the bar of the municipal court this morning and their cases passed upon by Judge Phelps. Officer Hogan swore that Frank Wilson of Milton, was so intoxicated as to be unable to care for his own safety, and Wilson admitted the offense, but claimed that he was a plumber from the village of Milton; that it was his first experience; and that he desired to go home so the court discharged him. John Higgins was charged with being in a similar condition on North Main street and paid \$1.00 and costs or \$3.15 in all. Daniel Cummings was also charged with overestimating his capacity but as he agreed to sin no more, the court discharged him. Andrew Johnson, a man in no way related to the ex-president, was also charged with drunkenness, Officer Houghton having arrested him last night. He admitted that the charge was true and was fined \$1.00 and costs.

Sam Davis, an old negro from Beloit, presented a commitment at the jail this noon and said:

"Got a little drunk down dah, sah, so de judge sent me up heah to rusticate for a few days." He was not attended by an officer.

Other Cases Heard.

"Bolivar" Ryan, of Beloit, who has been in jail here awaiting examination on the charge of beating a Beloit police officer, had a hearing at Beloit yesterday, and Justice J. B. Dow held him for trial. In default of \$300 bail, Ryan was brought back to Janesville and locked up. District Attorney Jackson appeared for the state while J. J. Cunningham conducted the defense.

John Hagany was acquitted of the charge of "leathering" Lawrence McCarthy, the trial of the case being finished late yesterday afternoon. There was no evidence to show that Hagany was the aggressor or that he struck McCarthy on the head with a stone as the latter alleged in his complaint.

STOLE A GIRL'S HAIR AS SHE SLEPT

Young Lady Shorn of Her Locks While She Lay Asleep. Chief Acheson was notified by City Marshal Cornell, of Whitewater, this morning, to watch out for a man about five feet six inches tall, thick set, with a black mustache, and a handkerchief peddler by occupation. The man is supposed to be the one who walked into the home of G. Mills, at Whitewater, and cut the long hair from Mr. Mills' daughter's head as she lay asleep.

HAS THE BOOK TRUST ANY CINCH HERE?

SCHOOL BOARD DISCUSS A MYSTERIOUS CHANGE.

One Set of Text Books Displaced By Another Without Any Intimation Appearing On The Records—Post Graduate Course Established—Two Teachers Engaged.

What hold has the school book trust on Janesville schools? Members of the board of education want to know.

A special meeting last night was devoted to the subject.

In the end the matter was left to the text book committee, and a report is awaited with interest.

While President Goldin was down east he heard that Janesville was listed as an "American Book Company town," that firms outside of the big publishers' trust need not apply.

"I guess not," said he. "That's the understanding among publishers," he was told.

When the president got back he told some of the board about it and they were surprised. Yesterday a communication came asking why Maynard Merrill & Co.'s language books had been displaced by the Sheldon language books. This called the eastern rumor to mind. The commissioners didn't know that such a change had been made—there was nothing on the records to show it—and last night's meeting was relied upon to furnish light.

Change Was Gradual One. In the course of a lively discussion the board learned that the change had been a gradual one dating back nearly a year. Last December the text book committee was instructed to provide enough Sheldon language books for use by the teachers as supplemental reading if it saw fit. The committee voted adversely except as to one grade where the books were ordered used by pupils.

It appears that the books have since been introduced in all the grades under consideration. As the board has always opposed changes, except where manifestly required, the facts developed gave rise to pointed comment. The text book committee was instructed to look into the matter carefully and report.

Communications were read bearing upon this and upon the geographies used in the schools. The geography question may come up next.

Post Graduate Course. A post graduate course in the Janesville high school was provided last night. The board also hired Miss Carrie Zeininger and Miss Nettie Kent as teachers; decided that hereafter tuition must be paid in advance; arranged that the hours in the high school could correspond with the grade work, besides paying some bills and doing other routine work.

The post graduate course idea was adopted, as it could be carried out without conflicting with the other school work in any way and without extra expense for teachers' hire. This course will aid many graduates, materially, in preparing to enter the university, Beloit college, etc., by affording them the means of "brushing up."

Miss Carrie Zeininger was assigned to duty in the high school, where she has rendered efficient service for some time, while Miss Nettie Kent, the newly hired teacher, was assigned to work in the Lincoln school.

Pay Tuition In Advance. The matter of requiring the payment of tuition in advance was brought up with the idea of putting a stop to the constant annoyance consequent to the system. It was decided to make all such fees due from non-residents, payable to the clerk, whose receipt, on exhibition to the principal of a school, would entitle the holder to enter.

The matter of the hours of the new high school was also considered and it was decided to make them correspond with the grade work. The invitation from the ladies of the Woman's Relief Corps asking the board to attend the flag raising this afternoon was accepted and placed on file.

The board decided to have the fence about the Webster school removed and voted to hold all future meetings of the board in the room provided for that purpose in the new high school building. It was also decided to open school on Monday and after voting to pay a number of bills and transacting some other routine business the board adjourned.

Only the north end of the new building will be opened Monday.

OLD MAN FOUND A NEEDED FRIEND. Passage Money Paid by a Stranger Who Filled His Sad Plight.

There was a sorrowful sight on one of the trains to Beloit last evening. A white haired man, feeble with age, begging to be carried to Beloit although without money. The conductor, as required by the rules, stopped the train and told him he must get off, but a kind hearted man who went back to see what the trouble was, willingly paid for a ticket. Tears of gratitude stood in the old man's eyes as he went back to his seat in the car.

FLAG RAISED O'ER THE SCHOOL

The Starry Banner Now Floats Over the Building.

The American flag was raised over the new high school building this afternoon, the exercises being begun at 2 o'clock sharp. The banner was presented by the Woman's Relief Corps of W. H. Sargent Post and the exercises were patriotic and interesting. Dr. J. B. Whiting acted as master of ceremonies and the program opened with music by the post Drum Corps, after which Mrs. Maggie Baker, president of the Corps made the presentation speech. President Goldin of the school board made the response and the flag was run to the top of the staff at the conclusion of his remarks. Singing followed and then came a short speech by Dr. J. B. Whiting. Music by the drum corps preceded John M. Whitehead's address and singing and recitation by Mrs. O. H. Brand ended the exercises. A large crowd attended.

BOY'S GREAT TOE CRUSHED OFF.

Fred Nelson Maimed by The Closing of a Sidewalk Grating This Afternoon.

Fred Nelson, the ten-year old son of Mr. and Mrs. L. M. Nelson, had one toe sheared off in a sidewalk grating this afternoon. He was walking barefoot, and when he slammed down the grating in front of Coulter's meat market, on North Main street, the great toe of his right foot was so badly crushed that it had to be amputated.

HE BOUGHT A RUNNING HORSE

Ira Miltimore Now Owns the Flyer, "Slippery Elm."

Ira Miltimore has bought the running horse "Slippery Elm" of his owner Mr. Miller of Milwaukee. This is the animal that ran away with his rider during the races at the fair and it is said to be a very valuable horse, but Miltimore "bought him right" and expects to have him more civilized very soon.

STONE CRUSHER HERE AND READY TO RUN

NEW MACHINE TO BE SET UP MONDAY.

Expert Avery of Rockford Will Come And Adjust It And Then the Roller Will Have a Chance To Speak for Itself—Use the Miltimore Quarry—Other City News.

The new stone crusher has arrived, and is now on a car on the sidetrack in the St. Paul company's yards. It will be set up in the Miltimore quarry, probably on Monday, and given a test. The machine was made by the Austin Crusher company and is rather an odd looking contrivance. The "mill" in which the stones are ground is made of cast iron and works somewhat after the manner of a corn sheller. Then a circular pipe that is punched full of different sized holes, sorts out the broken stone and puts each of the three grades that the machine turns out, in a bin by itself. Mr. Avery, of Rockford, the agent for the machine, will

VILLAGE HOSPITAL BUILDING.

Plans For an Institution That Every Section Should Possess.

(Copyright, 1895, by George Palliser, Architect, 82 Park place, New York.)

Every progressive town and village ought to have its own hospital building, and specially so when the situation is many miles from any regular hospital. Since we provide churches and schools in our villages for the moral and intellectual care and benefit of the people, why should we not also provide small hospitals for their physical care and benefit, and why

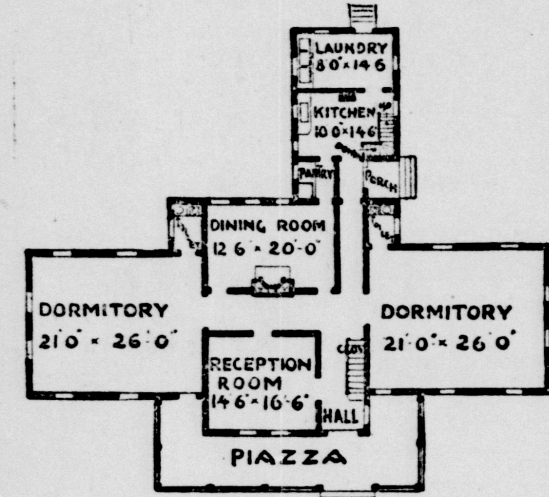

PERSPECTIVE VIEW.

should not the three go together to perfect the good work—the church, the school and the hospital?

In great cities there are numerous hospitals in which every malady of the human frame may be specially treated and where the diseases and accidents of the suffering poor can be ministered to, but in the large tracts of country between these centers of civilization there is no refuge to which poor creatures suffering from the terrible accidents consequent upon the introduction of machinery and the railroads can be taken. The consequence is that when from accident or disease it becomes needful to remove a patient from the location so ill provided for the proper treatment of the malady to the nearest hospital, perhaps 10 or 12 miles away, such a journey must, in many cases, be attended with much danger to the patient's life.

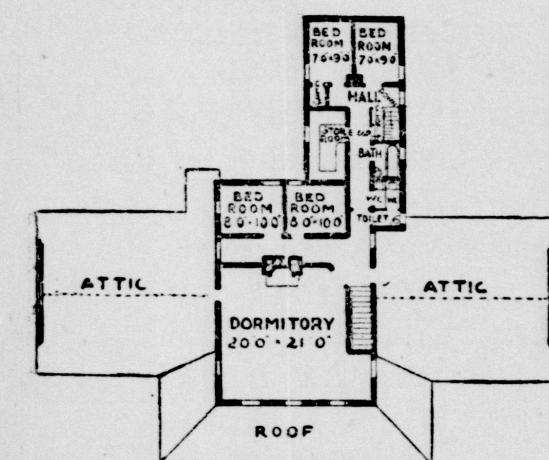

Now a village hospital is designed to meet the wants of such a case. It avoids the danger from a long journey, and the

FIRST STORY.

patient finds himself more than likely in a room he is partially acquainted with and not surrounded by strange faces. He has the advantage of a trained nurse; he is near his friends and they near him; he is familiar with everything and breathes free and easy, resting in the full satisfaction of his surroundings, with good care, good air, better than home, and he devotes all energies to getting well again. Such facts ought to be a sufficient argument in favor of establishing small hospitals in every village that is situated away from any regular hospital, and such buildings should always be simple in appearance, combined with all the advantages of modern science in planning and approved methods of construction as to hygiene, drainage, heating and ventilation as well as the appliances for facilitating the recovery of the patients which are to be found in the best hospitals.

A frame hospital building, planned as a children's hospital in connection with a

SECOND STORY.

large institution, where it was necessary to have such a building to isolate cases of sickness so prevalent among the children. The building is 79 feet front, 34 feet deep, the main part being two stories, the height of first floor being 10 feet and second 9 feet in clear.

The first floor contains two large wards or dormitories and the general working part of the building, it being necessary to do all cooking and washing for the inmates within the building.

The second floor front room is used as a dormitory for small children. The building is heated by furnace located in center of cellar and the wards fully ventilated in to vent shaft built in the chimney, utilizing the heat from the furnace flue to accelerate the draft. The frame is sheathed, papered; first story clapboarded, the gables, second story and roofs being shingled. Floors lined and deadened; finish of pine painted. Plumbed complete and a good finished building for the purpose, at a cost of \$4,500.

The Foundation of Good Painting.

If all exterior new woodwork as soon as put up had a good heavy coat of pure linseed oil, it would be far better for it than putting on any color. Then, after this, two coats of good paint properly applied, in place of the ordinary three coat work. This would make a better job, the oil filling the pores of the wood and sinking well in, laying a foundation that holds out the paint, and it is not as liable to peel or crack as a large body of lead or color would be. The oil is the material that does the most good, and when that evaporates and is gone it is then time to repaint. Try a coat of oil first, and you will save money, time and get better satisfaction for your money.

Make Honest Estimates.

It does not pay to deceive people as to what a certain amount of cash will accomplish in the erection of a house. No man can afford to place himself or get others by misrepresentations into a false position, and this is exactly what many are doing, either willfully negligent or stupidly ignorant of the facts so necessary and essential to their business integrity and success, by persistently setting before the public designs for houses which they are giving the cost of in some cases more than 100 per cent too low.—George Palliser.

MERCURIAL POISON

Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than the disease—and in a short while is in a far worse condition than before. The common result is

RHEUMATISM

for which S.S.S. is the most reliable cure. A few bottles will afford relief where all else has failed. I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly and am now a well man, completely cured. I can heartily recommend it to any one suffering from this painful disease. W. F. DALEY, Brooklyn Elevated R. R.

of our success lies in the fact that we never attempt to deceive the public. We are not tricky. When we advertise we say what we mean and mean what we say. Every bargain advertised by us is warranted to be a bargain, and exactly what we say it is. Furthermore, we make it a point to have a sufficient quantity of such goods to supply all comers. The common excuse, "Sorry, but they are all sold," or "We are just out of them, but here is something just as good," will not be made at our store. Buying all goods in large quantities, and selling at the closest possible margin, we are today the cheapest house in the city.

Don't Trust To Luck

And imagine that you can wander into any hardware store and be treated right. Experience teaches that unscrupulous dealers take advantage of unsuspecting customers. There are no angels back of our counters, but you will find that honest business methods prevail and that the "live and let live" policy is strictly adhered to. It is our aim to make each and every person who enters our establishment a customer, and it is only by giving them dollar for dollar goods, placing before them only such goods as we positively know to be value goods and will be a constant salesman for our establishment, that we can attain that end. And we are fast succeeding.
